With a vast selection of dried fruits, we have something for everyone. Dried fruits generally contain more fiber than the same-sized serving of their fresh counterparts. They have no fat, cholesterol or sodium and can help to sweeten blander food without adding refined sugars. Dried fruits also have a long shelf life (up to 12 months) and take up little shelf space. We offer 250g, 500g, 1000g & bulk packaging to suit your needs.
